

# Brexit: A Way Forward

Marcello Sacco (Ed.)

SERIES IN LAW

## Summary

The outcome of the European Union membership referendum in 2016 has presented the United Kingdom with one of its greatest challenges of modern times. As negotiations for an exit strategy continue, this volume looks to open up conversations on the socio-legal implications of such a monumental transition. Aimed at addressing issues relating to Brexit that affect every aspect of British society, this book seeks to not just list the problems but to offer viable solutions for “the way forward”.

Divided into three parts, this book presents a comprehensive yet accessible discussion of the impact of Brexit on the United Kingdom. Part I brings together three social studies that reveal that Brexit may be the result of international nationalist narratives, and that the choice to leave the EU is already affecting Brits abroad and the future opportunities for British students. Part II turns its attention to national legal issues that are affected such as the Irish border, waste management, moral copyright, and the support of local enterprises. Lastly, Part III investigates commercial law touching on important topics such as international litigation, insolvency and tax law. As this publication suggests eventual solutions to several issues caused by Brexit, it may be of interest to not only other academics working in the field, but also to policy makers and relevant stakeholders.

## Contents

### Preamble

Marcello Sacco, *Leeds University Law School*

### Contributors

#### Chapter 1 **Brexit and the Emergence of Nationalist Narratives in Europe: Creating a New Narrative for the European Union**
